Hello! This is Sumdog, and our school will be using it to help your child with remote learning.
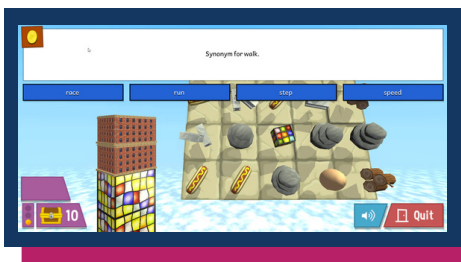

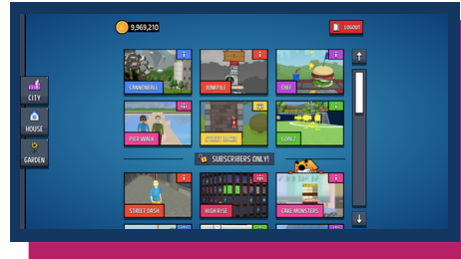

What is Sumdog?

Sumdog is an online learning tool which provides personalised maths and spelling practice that children love. It adapts questions to each child, using engaging games to build their confidence, and it's been shown to accelerate progress.
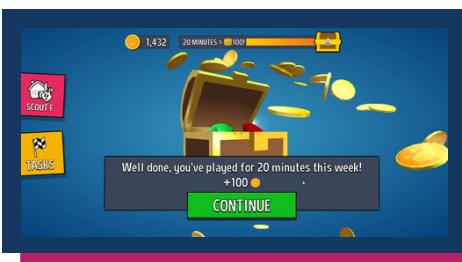

Making learning fun

Sumdog helps children to practise regularly, combining questions from the curriculum with fun mini games. The games are non-violent, child friendly and highly engaging - children don't even realise they are learning!

Keeping your child safe

Sumdog follows best practices in GDPR and data security, and does not support communication between pupils, so your child is safe with them.

Sumdog follows best practices in GDPR and data security, and does not support communication

Rewarding effort and achievement

For every correct answer, children are rewarded with coins to spend on their avatar or Sumdog house. And every time a child masters a new skill, their pet learns a new trick!

Parents can join in too

Your child's teacher may set focused work on topics they've learned, which will pop up when they log in. With a parent account it's easy to keep track of what your child is learning. You can also play the games with your child and encourage them along the way. Sign up for your free account on our website.

Get started now

Sumdog can be accessed on a computer, mobile or tablet. Go to www.sumdog.com or download the free Sumdog app which is available on Apple or Android.
